

Board selects new logo

The Board of Trustees at its October meeting selected a new College logo which will be in use throughout the campus by next June.

The Board approved the design, pictured at right, during its Oct. 18 meeting. Designed by Judith Bair, an artist with Gallaudet College Press, the logo was chosen to represent the total educational mind and spirit of Gallaudet.

Bair's design was one of three under consideration. The Central Administration chose in September what it considered to be the three best designs from 72 entries. The works of Wendelin Davidson, a graphic artist with Art and Photography Services, and Hima Pamoedjo, an artist from New York, were also selected.

The Gallaudet community was invited to give its input on the three designs. Bair's design was variously described as dignified, elegant, classic, warm, esthetically interesting and traditional.

Whereas the College logo will be used on such unofficial materials as T-shirts, mugs, brochures and College vehicles, the Gallaudet College seal will be used on official documents such as diplomas, resolutions, commendations and formal invitations.

"By using the seal less, we will enhance its dignity," stated Jack Gannon, executive director of the Office of Alumni Relations and Advancement and a member of the Central Administration. "Widespread use of the seal on everything cheapens it."

New parent-infant specialist program first in nation

A parent-infant specialist program implemented this fall by the Department of Education is the first such master's program offered in the nation.

The two-year master's level program prepares specialists to work with hearing impaired and multihandicapped hearing impaired children up to 3 years of age and their parents and families.

The teacher preparation program, currently in the review process by the School of Education and Human Services, was designed and is being co-directed by Barbara Bodner-Johnson and Tom Jones of the Department of Education. It is funded through a three-year grant from the United States Office of Special Education and Rehabilitative Services.

Four full-time students are currently enrolled in the program. The program is based on the philosophy that early intervention and parent involvement are critical for all areas of development of handicapped children—language, cognition, social-emotional, motor and self-help skills—as well as for maintaining and developing family integration of the special child.

P.L. 98-199, passed in December 1983 amending P.L. 94-142, permits federal funds to be used to serve handicapped children under 3 years of age, and thereby enables states to develop and implement comprehensive plans to provide early childhood education to all handicapped children from birth. Program growth potential and the lack of professional preparation bring into focus the need for the Gallaudet program, according to Bodner-Johnson.

In addition to the core courses in education of the deaf, course content in the preparation program includes pediatric audiology, infant development

College seeks to reduce long distance telephone usage

In attempting to stay within this fiscal year's \$360,000 budget for telephone service, the College's Telecommunications Department is seeking to reduce telephone usage on campus by 35 percent.

At the same time, the College has installed a toll-free 800 line for use in promoting the College and its services. The number is 800-672-6720.

The toll-free number encourages persons to call with questions about the College who otherwise might not do so, according to Michael Southers, telecommunications manager. "With the population of deaf (students) decreasing and more competition—more alternatives to Gallaudet—we see this as a good way to promote College enrollment and services," he explained.

There are three lines for the one 800 number and funding for it comes from the general College budget.

The Telecommunications Department, on the other hand, pays for outgoing calls made by Gallaudet employees.

Whereas last fiscal year the College paid a flat rate of \$40,000 for phone service through the Federal Telephone System (FTS), this fiscal year the College is paying for service on a measured basis. Flat rate service allowed the College to pay one fixed rate regardless of the number of long distance calls while measured rate charges on a per call basis.

FTS also changed its rate structure Oct. 1, with all calls—regardless of when they are made—included in the

measured rate. Before the change, calls made on weekends and between 5 p.m. and 8 a.m. on weekdays were free.

"Every call we make now is distance, time, time of day and duration sensitive," Southers said, noting that the College must reduce its usage rate by 35 percent in order to stay within its budget for phone service.

That goal is not an unreasonable one, Southers maintained, pointing to national statistics which indicate that a large institution can expect an abuse rate of 40 percent for long distance calls.

Toward its goal, the College is in the process of recording cost information on all outgoing long distance calls. The

NW Campus dedicates four buildings

Alumni, students and friends of Gallaudet gathered at the Northwest Campus on Oct. 27 for the dedication of Searing, Fufeld, Burns and Schreiber Halls.

Jack Gannon, executive director of the Office of Alumni Relations and Advancement, opened the ceremonies and Ann Davidson, dean of the School of Preparatory Studies, welcomed those assembled to the Northwest Campus.

Representatives from the student body, faculty, the National Association of the Deaf (NAD) and Gallaudet's administration gave short histories of the persons being honored by the building dedications; then plaques for the

buildings and photographs of the persons honored were unveiled. The plaques will be mounted on the exteriors of each building and the photographs hung in appropriate places within each building.

The buildings were dedicated in honor of Laura Searing, a graduate of the Missouri School for the Deaf and a recognized author and journalist during the Civil War period; Irving S. Fufeld, first dean (1939-1953) and a vice president of Gallaudet (1920-1939); Byron B. Burnes, a long-time president of the NAD; and Frederick Schreiber, former executive secretary of the National Association of the Deaf.

Library Bits & Pieces

Decorative arts by Deborah Grier

The decorative arts flourished throughout Europe and the United States during the latter part of the 19th century and the early part of the 20th century. Designs in architecture, interior decorating, sculpture, graphics, illustrations and fashion design were influenced by this type of art movement. The decorative arts are described as follows:

Art nouveau: Taken from the French words "new art," it is derived from a Parisian shop, La Maison de l'Art Nouveau, which exhibited fine art objects made in this style. This ornamental style is most notably characterized by long, sinuous lines that may be elegant and graceful or asymmetrical shapes forming energetic whiplash-like patterns.

Forms depicting young women, flowers (lilies or roses), vine tendrils or peacocks are used most often. Examples of art nouveau can be found in floral motifs decorating interiors and ex-

teriors of buildings and in glassware. American artist Louis Comfort Tiffany, creator of Tiffany glass, incorporating color and ornate design in his works, has best exemplified this style.

Art deco: The style, which became popular during the 1920s and 1930s, is characterized by elegant, sleek, geometric shapes and lines often creating forms using glass, chrome and plastics. Art deco greatly influenced architectural styles and decor in gas stations, diners and movie theaters, to give a few examples. The Silver Theatre and adjacent shopping mall in Silver Spring, MD, illustrate two of the strongest influences of this style in architecture.

The decorative arts allowed the artist to break away from the traditional, rigid structure of rules in art and allowed more freedom of expression and illusion of movement in creating lines and shapes.

Print and non-print materials on the decorative arts are available in the Gallaudet College Library. See *Art Nouveau* by Madsen 709.034 M3a 1967 and *Art Deco* by Arwas, 709.04 A7a 1980.

New education program implemented

continued from page 1

and assessment, family involvement, parent education and consulting, parent-infant program administration, educational management and development of self-help and motor skills in the multihandicapped, curriculum development and instructional methods for hearing impaired infants and their parents and aural-oral habilitation for teachers of hearing impaired infants. Students participate in field-based practice each semester culminating in a full-time internship experience.

The program is designed to lead to District of Columbia certification in early childhood/handicapped and hearing impairment and Council on Education

of the Deaf (CED) certification in infant/pre-primary education. Because Washington, D.C. is a member of the Interstate Certification Compact, graduates certified in the city have reciprocal eligibility for certification in at least 27 states.

The four students currently enrolled in the program are: Kathleen Burr from Redding, CT; Paula Combs from Cincinnati, OH; Joan Donnelly from Columbia, MO; and Helen Jimenez-Ulloa from Brooklyn, NY.

For further information about the program, contact Barbara Bodner-Johnson or Tom Jones, Department of Education, Fowler Hall, x5400.

Sponsored R&D

Grant/contract deadlines

Provided below are application deadlines of selected federal programs that offer potential grant or contract opportunities for Kendall Green faculty, staff and graduate students. More details on these and other programs of interest can be obtained from the Office of Sponsored Research at x5030 (voice or TDD).

Deadline	Program
11/29/84	ED: Fund for the Improvement of Postsecondary Education
12/7/84	OSERS: Secondary Education and Training Services for Handicapped Youth
12/31/84	Kellogg: Kellogg Foundation's National Fellowships
Early January	ED: Mina Shaughnessy Scholars
1/15/85	NSF: Research Opportunities for Women
2/1/85	DCCHC: The Meaning of Work; Humanities and Women; Humanities and Urban Life; Humanities in the Schools
3/1/85	NCHSR: Health Care Technology Research
3/1/85	NIDA: Marijuana Research

3/1/85	NIA: Older People and Social Institutions
3/1/85	NIOSH: Research and Demonstration Grants
3/1/85	NIMH: Research on Stress Reactivity in Adolescence
No Specific Deadline	NSF: Intergovernmental Program

Scholars Program

The Mina Shaughnessy Scholars Program offers a maximum of \$20,000 in grant awards to individuals who work in postsecondary education as faculty, consultants, evaluators, administrators or counselors.

The program is with the Office of Postsecondary Education at the Department of Education and permits recipients to take time off from their jobs to perform outside activities that will make a lasting and significant improvement in education.

A tentative deadline of Jan. 15 has been established and applications will be available at a later date. For more information, contact the Office of Sponsored Research at x5030 or the Department of Education at 245-8091.

The KDES Middle School eurythmics class during its performance last week of an original play entitled "Halloween Fun."

College hosts six international interns

Six persons from different parts of the world are participating this year in the International Internship Program sponsored by the College's International Center on Deafness.

Each year the International Center on Deafness hosts a number of international interns—professionals in the field of deafness who seek to upgrade their skills for use in their own countries.

Last year, host families were found for the interns, giving the interns a contact for off-campus activities. They got together for dinner at the host family's home, took trips in the area, went on shopping outings, etc. The interns took an occasional outing off campus to learn another aspect of American life.

In turn, the families learned about another culture. "There was no commitment between the parties involved other than to enjoy the exchange of international experiences," explained Lou Brown, assistant director of the International Center on Deafness.

Two of this year's interns hail from Japan, one from Bangladesh, one from Denmark, another from Upper Volta and the last from Switzerland. The interns from Bangladesh and Switzerland are deaf, the others are hearing.

Anyone who would like to spend some time with any of the interns should contact the International Center on Deafness at x5316.

Hearing technology symposium set

The Gallaudet Research Institute and the Defense Research Foundation will present a day-long symposium entitled "Hearing Technology: Its Present and Future" at Gallaudet next month.

Scheduled for Wednesday, Dec. 5 from 8:30 a.m. to 5 p.m., the symposium will discuss advancements in the design and fitting of hearing aids and the status of cochlear implants. Leading scientists will explain new developments and how they may affect future professional activities.

Topics will include surgical procedures, speech perception results,

future implant systems, digital aids and trends in tailoring amplification to specific user needs.

The symposium is designed for audiologists, otolaryngologists, educators of hearing impaired children, speech pathologists, health administrators, biomedical engineers, hearing scientists and speech scientists.

Gallaudet faculty, staff and students can register for the symposium free of charge before Nov. 21. For registration forms or more information, call Zeda Daniel at x5440.

Colloquium Nov. 8

Lilian Rosenbaum, director of Biofeedback Programs at Georgetown University School of Medicine, and Bernard Brown, a clinical instructor at Georgetown University School of Medicine, will speak at the Graduate School colloquium scheduled for Nov. 8 at 4 p.m. at the Ely Center auditorium.

They will present data supporting their hypothesis that stress affects competence and intelligence in children. Based on information from more than 4,000 7-year-old children, Rosenbaum and Brown found increased intellectual deficits as stress increased among certain children. Among the children at high risk for I.Q. deficit with increasing stress levels were children held back a grade in school, children in special education classes, children with eye problems and children with auditory comprehension problems.

Rosenbaum and Brown will also discuss protective factors that seem to act as buffers against the negative effects of stress.

General campus announcements

Open Season, that time of year when all permanent employees can change or join health benefit plans, has begun and will continue through Dec. 7. Any Open Season changes or elections will become effective Jan. 6.

Employees will have an opportunity to obtain information about the various health benefit plans from plan representatives at two health benefit fairs scheduled in the Ely Center multipurpose room Nov. 12 and 13 from 10 a.m. to 2 p.m.

To change plans or join a plan, a health benefits registration form (2809) must be completed. Those forms can be obtained at the following locations on campus: MSSD—Room 206;

KDES—Room 3200; HMB—Room 156; Central Utilities Building—Maintenance and Operations Administrative Office; Northwest Campus—Business Services Office, Webster Hall; and College Hall—Personnel Office, Room 7.

The Gallaudet College Theatre Arts Department will present Tennessee Williams' "The Rose Tattoo" Nov. 9, 10, 16 and 17 at 8 p.m. at Elstad Auditorium.

Tickets are \$2.50 for students and children (including sign language students) and \$4.50 for all others. Gallaudet students with identification will be admitted free of charge.

Reservations can be made by calling x5608 (TDD) or x5605 (voice). Box office hours are: Nov. 9 and 10 from 2 to 8 p.m.; Nov. 12-15 from 2 to 5 p.m.; and Nov. 16 and 17 from 2 to 8 p.m.

A party and auction fund-raiser for Susie and Mike Kaika will be held Friday, Nov. 9 at 7:30 p.m. at "Ole Jim." Both Susie and Mike Kaika are graduates of Gallaudet and are employed at the College. The fund-raiser has been scheduled to help defray costs the Kaikas are incurring since Susie became ill with a severe demyelinating illness.

Along with the auction, an etcetera corner will be open. There will also be food, music and a cash bar.

Anyone who can't come to the party but would like to make a contribution should contact Sharon Hayes at x5749, Marianne Sasseen at x5250 or Mary Anne Pugin at x5105.

Telephone usage

continued from page 1

type of information being collected, Southers explained, is exactly the kind of information given on a person's phone bill from AT&T.

Long distance call information is being gathered on each extension and will be sent to the appropriate budget unit heads. Southers expects to begin issuing monthly reports with that information to budget unit heads to give them an idea of how many long distance calls are being made by their offices. The information is now being recorded but the reports won't be released for a couple of months.

If unable to reduce phone usage by 35 percent, the College will begin chargebacks to campus departments for that portion of usage which exceeds the budgeted amount, Southers said.

Board of Trustees meets Oct. 18-19

The Gallaudet Board of Trustees held its fall meeting on campus Oct. 18 and 19 prior to the inaugural events.

The Board approved the Gallaudet Institute, an executive fellowship for deaf individuals. Its focus will be on preparing hearing impaired individuals for executive management positions through an in-depth exposure to and active participation in the administration of a broad and complex educational institution.

The Board also approved as submitted the MSSD faculty bylaws.

As recommended by the Honorary Degree Committee, two individuals received professor emeritus status—Leon Auerbach and Francis Higgins. Richard Phillips received dean emeritus status.

The Board also approved the establishment of a faculty compensation advisory committee which will serve as an advisory body to the president and the Gallaudet administration on matters of compensation.

During the meeting, members of the Board were presented a citation from the students, faculty, staff and administration of Gallaudet College. The citation expressed to the Board members the College's appreciation, admiration and gratitude for their willingness to render difficult decisions, their leadership and their assistance as the College has attempted to stabilize its course.

The next meeting of the full Board is scheduled for January.

Ann Davidson, dean of the School of Preparatory Studies, addresses the group assembled for the dedication of four buildings at the Northwest Campus.

Board approves new logo design

continued from page 1

Widespread use of the logo, on the other hand, will help develop "consistency and a united Gallaudet image," added Gannon, who coordinated the logo search. "We want people from off campus to be able to take one look at our materials and immediately identify them with Gallaudet. When we have a multiple of logos, typefaces, etc., that is not possible."

The College will soon begin a trademark search which may take up to five weeks to complete, Gannon noted.

At the same time, guidelines for the logo's use will be developed. With the approval of the Central Administration, the guidelines will be forwarded to budget unit heads in December. Campus departments will be given six months to use up their current supply of printed materials.

After June 3, 1985 the entire campus will be using materials on which the new College logo will appear.

'Cats' to be interpreted

Programs in Adult and Community Education (PACE) will sponsor a special interpreted performance of "Cats" at the National Theatre, Thursday, Nov. 8.

The performance will begin at 8 p.m. at the theatre located at 1321 E Street, NW. The cost is \$32 per person. For more information, contact Todd Krock at x5597.

Personalities

Katherine Seelman is a visiting scholar with the Research Institute. While at Gallaudet, she will conduct research on telecommunications policy and deaf persons. She has a doctorate degree in technology and public policy.

Seelman

Ballinger

Lloyd Ballinger is a communication technician with Gallaudet College Computer Services. He is responsible for installing communication lines for computer use and developing a network system for campus. A 1983 graduate of Gallaudet, he has worked as a designer for Republic Electrical & Development Company in Peoria, IL.

Paulette Fisher-Finch is a secretary in the Student Life Office. Before coming to Gallaudet, she worked at the Veterans Administration for five and one-half years. She is currently enrolled in the Academy of Business School for Data Entry.

Fisher-Finch

Staehle

Sharon Staehle is a student aide coordinator with Student Special Services. Her responsibilities include recruiting, screening and advising student aides who provide services to multiply disabled students. She graduated from Gallaudet in 1983 with a bachelor of arts degree in communication arts.

O'Donnell

Michael O'Donnell is an intake coordinator with Experiential Programs Off Campus. In this capacity, he helps place students in internships and helps them with their resumes and job interviewing skills. He is a 1984 graduate of Gallaudet, having earned a bachelor of arts degree in sociology and American studies.

The College football team lost its Homecoming game to Appalachian State Club on Saturday, Oct. 27 by a score of 18-0. The team finished the season with a 1-4 record.

More programs captioned this fall

by Mike Kaika

This fall, close to 70 hours of captioned programming will be offered on television each week. The programming includes shows like "Good Morning America," which will be captioned as of Dec. 1 and "ABC News This Morning" and "20/20," both of which are already being captioned.

ABC-TV network is still by far the leader in providing captioned programs. ABC affiliates are now providing funds to caption "Paper Dolls" and "Who's The Boss?" The ABC-TV Affiliates Association funding is being applied as a National Captioning Institute (NCI) Caption Club matching grant.

Most specials, children's programs and news programs will be or are now shown with captions. The presidential and vice-presidential debates, for example, were real-time captioned thanks to the League of Women Voters.

Persons with cable programming can watch "Brothers," "Bizarre," "Faerie Tale Theatre" and movies on Showtime/The Movie Channel. Additionally, HBO is now offering at least one major movie a month on its pay cable service. An article in the fall issue of *Caption*, a newsletter of NCI, says in part: "Last fall, the Board of Directors of the National Cable Television Association unanimously passed a resolution enforcing NCI and the expansion of closed captioning throughout the cable industry."

Even CBS, a longtime hold-out of

captioning for the Line 21 decoder, has joined the fold and now televises "Dallas" with dual-mode captions. With this set-up, captioned programs can be viewed with a teletext decoder or the Line 21 decoder. The latter is the original decoder that was first made available in 1980 and is the type most commonly in use. CBS also indicated it will caption selected movies and specials.

Each morning NCI televises Hearing Impaired News and Text Service (HINTS) and PLUS, an acronym for Program Listing Update Service.

Individuals, clubs or organizations who have information, announcements or articles that would be of interest to the deaf community should send them to Edward C. Carney at NCI. Carney, a Gallaudet graduate, has complete supervision of this news service, which may be moving to a prime time slot in the near future. To view HINTS, set your decoder controls to TEXT C-1.

PLUS is updated daily by NCI and is far more accurate than TV guide magazines because NCI receives last-minute additions and changes and incorporates them on PLUS. To view PLUS, set controls to TEXT C-2.

Captioned programs have come a long way in a short time and the hearing impaired TV audience is now faced with decisions. One prime time example is Wednesday night when "Facts of Life," "Dynasty," and the CBS movie are all captioned beginning at 9 p.m.

Bison lose Homecoming game, 18-0

The football team lost its Homecoming game to Appalachian State Club 18-0 on Saturday, Oct. 27, ending the season with a 1-4 record. Appalachian scored its first touchdown in the opening quarter, then scored again on the next possession with a 93-yard touchdown pass. The team added another touchdown in the final quarter.

On the brighter side of Homecoming, the soccer team defeated NTID by a score of 3-1 and the women's volleyball team swept four games to win the volleyball tournament held at the Field House.

The NTID match was the soccer team's last of the season. The team ended the season with a 9-4 record for its ninth consecutive winning season.

The volleyball team, which is currently sporting a 24-5 record, has two games remaining on its schedule.

The men's and women's cross country team went through the season without a victory, posting a 0-6 mark in dual meets.

Buildings dedicated

continued from page 1

Fusfeld's son, Daniel Fusfeld, spoke on behalf of his family and recalled memories of growing up on Kendall Green. Beverly Schreiber Perrell similarly represented the Schreiber family. Byron B. Burnes spoke on his own behalf, expressing gratitude to Gallaudet for honoring him in this way.

Gerald Burstein, president of the Gallaudet College Alumni Association, then presented all of the plaques to Gallaudet. President Jerry C. Lee accepted the plaques on behalf of the College and dedicated the buildings.

Schedule for drug awareness activities

An alcohol/drug awareness fair is among the activities scheduled this month during Alcohol and Drug Awareness Month on campus. November was designated Alcohol and Drug Awareness Month by the Division of Student Affairs.

Activities coordinated by the Student Affairs Alcohol and Drug Committee will include:

- An open Alcoholics Anonymous meeting at the Student Health Service Nov. 6 from noon to 1 p.m.
- An Alanon meeting at the Student Health Service Nov. 7 from noon to 1 p.m.
- A Chem-Free Fair, an all-day alcohol/drug awareness fair Nov. 7 in the multipurpose room of Ely Center. Hours of the fair are 10 a.m. to 4 p.m. Booths will be set up at the fair, with a rap session, stress management discussion and exercise class scheduled during the event. Non-alcoholic cocktails—mocktails—will be served in the Abbey for those who complete an evaluation of the day's events.

- Mocktails served by ARA in the cafeteria and snack bar Nov. 8 and a peer advisers' program on responsible drinking held from 7 to 8 p.m. at Krug Hall.

- An open Alcoholics Anonymous meeting at the Student Health Service Nov. 13 at noon.
- A workshop covering issues of alcohol abuse Nov. 13 at Ely Center, Room 136. The workshop is scheduled from 7 to 8:30 p.m.
- An open Alanon meeting at the Student Health Service Nov. 14 at noon.
- A film festival night at the Abbey Nov. 15.
- An open Alcoholics Anonymous meeting at the Student Health Service Nov. 20 at noon.
- A "Mock Nite" on Nov. 20, with time and location to be announced.

For more information about the alcohol and drug education programs, contact Tina Jo Breindel in Room 329 of Ely Center.
